PRECAUTIONS

- It is **STRICTLY FORBIDDEN** and **EXTREMELY DANGEROUS** to enter the fumigated room and the rooms adjacent to it during fumigation!
- Hydrogen phosphate gas is highly flammable and explosive, so the area must be switched off of any electricity. In case of fire, **DO NOT** extinguish with water or water-based extinguishing agent! Suitable extinguishing materials: powder, dry sand, carbon dioxide. In case of fire, gases harmful to health are formed.
- It is **FORBIDDEN** to remove the insulation and warning labels!
- It is the customer's responsibility to guard the fumigated space.
- **DO NOT** store water or other liquids in the room!
- Rooms adjacent to the fumigated space must be continuously ventilated during fumigation. In the event of a strong gas odor, notify the fumigator.
- After venting, fumigated crops can only be transported safely after the required sifting process.

We accept no liability for accidents resulting from non-compliance with the PRECAUTIONS and verbal instructions. By signing the Precautionary Statement and receiving a copy, I certify that I am aware of the above. No activities may be carried out in the enclosed space during fumigation, violation of which is prohibited and life-threatening, and in addition, it may affect the effectiveness of fumigation and thus the extent of the guarantee.
