

Health and Safety training certificate

Based on the 1993 XCH. Section 50 of the Occupational Safety and Health Act, Section 22 of the Fire Protection Act 1996, Section 30/1996. (XII. 6.) 13M, and taking into account the provisions of the internal instructions, I provided preliminary theoretical and practical occupational health and safety and fire safety training.

...

Content of training material:

- The system of legal regulation of labor protection and fire protection
- Content requirements of internal regulations (MVSZ, occupational safety regulations, Fire Protection Regulations, etc.)
- Safety and fire protection regulations for employees
- Requirements before, during and after work.
- Expectations related to maintaining work order and cleanliness
- Collection and disposal of waste generated during work (tasks related to hazardous waste)
- Requirements relating to the procedure for medical tests
- Workplace behaviour requirements
- The concept of an accident at work
- The concept of an industrial accident
- What to do in case of injury, accident (first aid, reporting, etc.)
- Prohibition of alcohol consumption at work, working condition.
- Flammability classification
- Fire hazard classes and their interpretation.
- Classification of the employer's facilities into a fire hazard class
- Requirements for the performance of flammable activities.
- Expectations related to the use and storage of flammable materials
- Requirements for exit and entrance doors, traffic routes
- Utilities (electricity, water, gas, etc.) regulations (release of main switches, etc.)
- No smoking, no open flames, designated smoking areas.
- Interpretation of prohibition signs
- Fire extinguisher locations – if any
- The method of installation and use of fire extinguishers, devices and equipment provided by the employer. In the event of a fire, what to do (alarm, life-saving, vaccination, etc.).
- Sequence of actions in case of self-extinguishing fires.
- Content requirements for notification to a fire authority.
- Content requirements and location of fire alarm plan.

I have received preliminary and practical training in health and safety and fire protection, which I have understood and which I consider to be mandatory for myself.

After a quick Q&A test, the employee is passed: YES / NO
